# USER RESEARCH

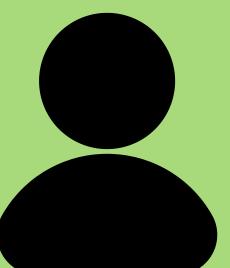

## INTERVIEWS

People who experienced Lao New Years Water Fights firsthand...

Sone

“Younger children use water pumps made from bamboo”

Mit

“Different number of holes are poked to get different streams”

“Rubber bands and oil were used to make a syringe type gun”

# Elton Keopraseuth

## INSIGHTS

Interview:

- Lao new year tradition - customized homemade water guns from bamboo

Market:

- Building toys with water, but no toy gun
- No premade kits, but DIY
- Premade kit Only in Japan
- Harder for children to make their own

## MARKET RESEARCH

The market research section contains four images. Top left: A colorful, multi-headed water gun made from plastic pipes and fittings. Top right: A collection of white PVC pipes and fittings, with a text overlay 'HOMEMADE PVC WATER GUN DIY'. Bottom left: A child playing with a 'DIY assemble water pipe bath toys' kit, which includes a blue base, colorful pipes, and small figures. Bottom right: A child playing with a white PVC pipe water gun in a garden setting. Bottom center: A close-up of a bamboo water gun lying on grass, showing its hollow interior and how it's constructed from a single bamboo stalk.

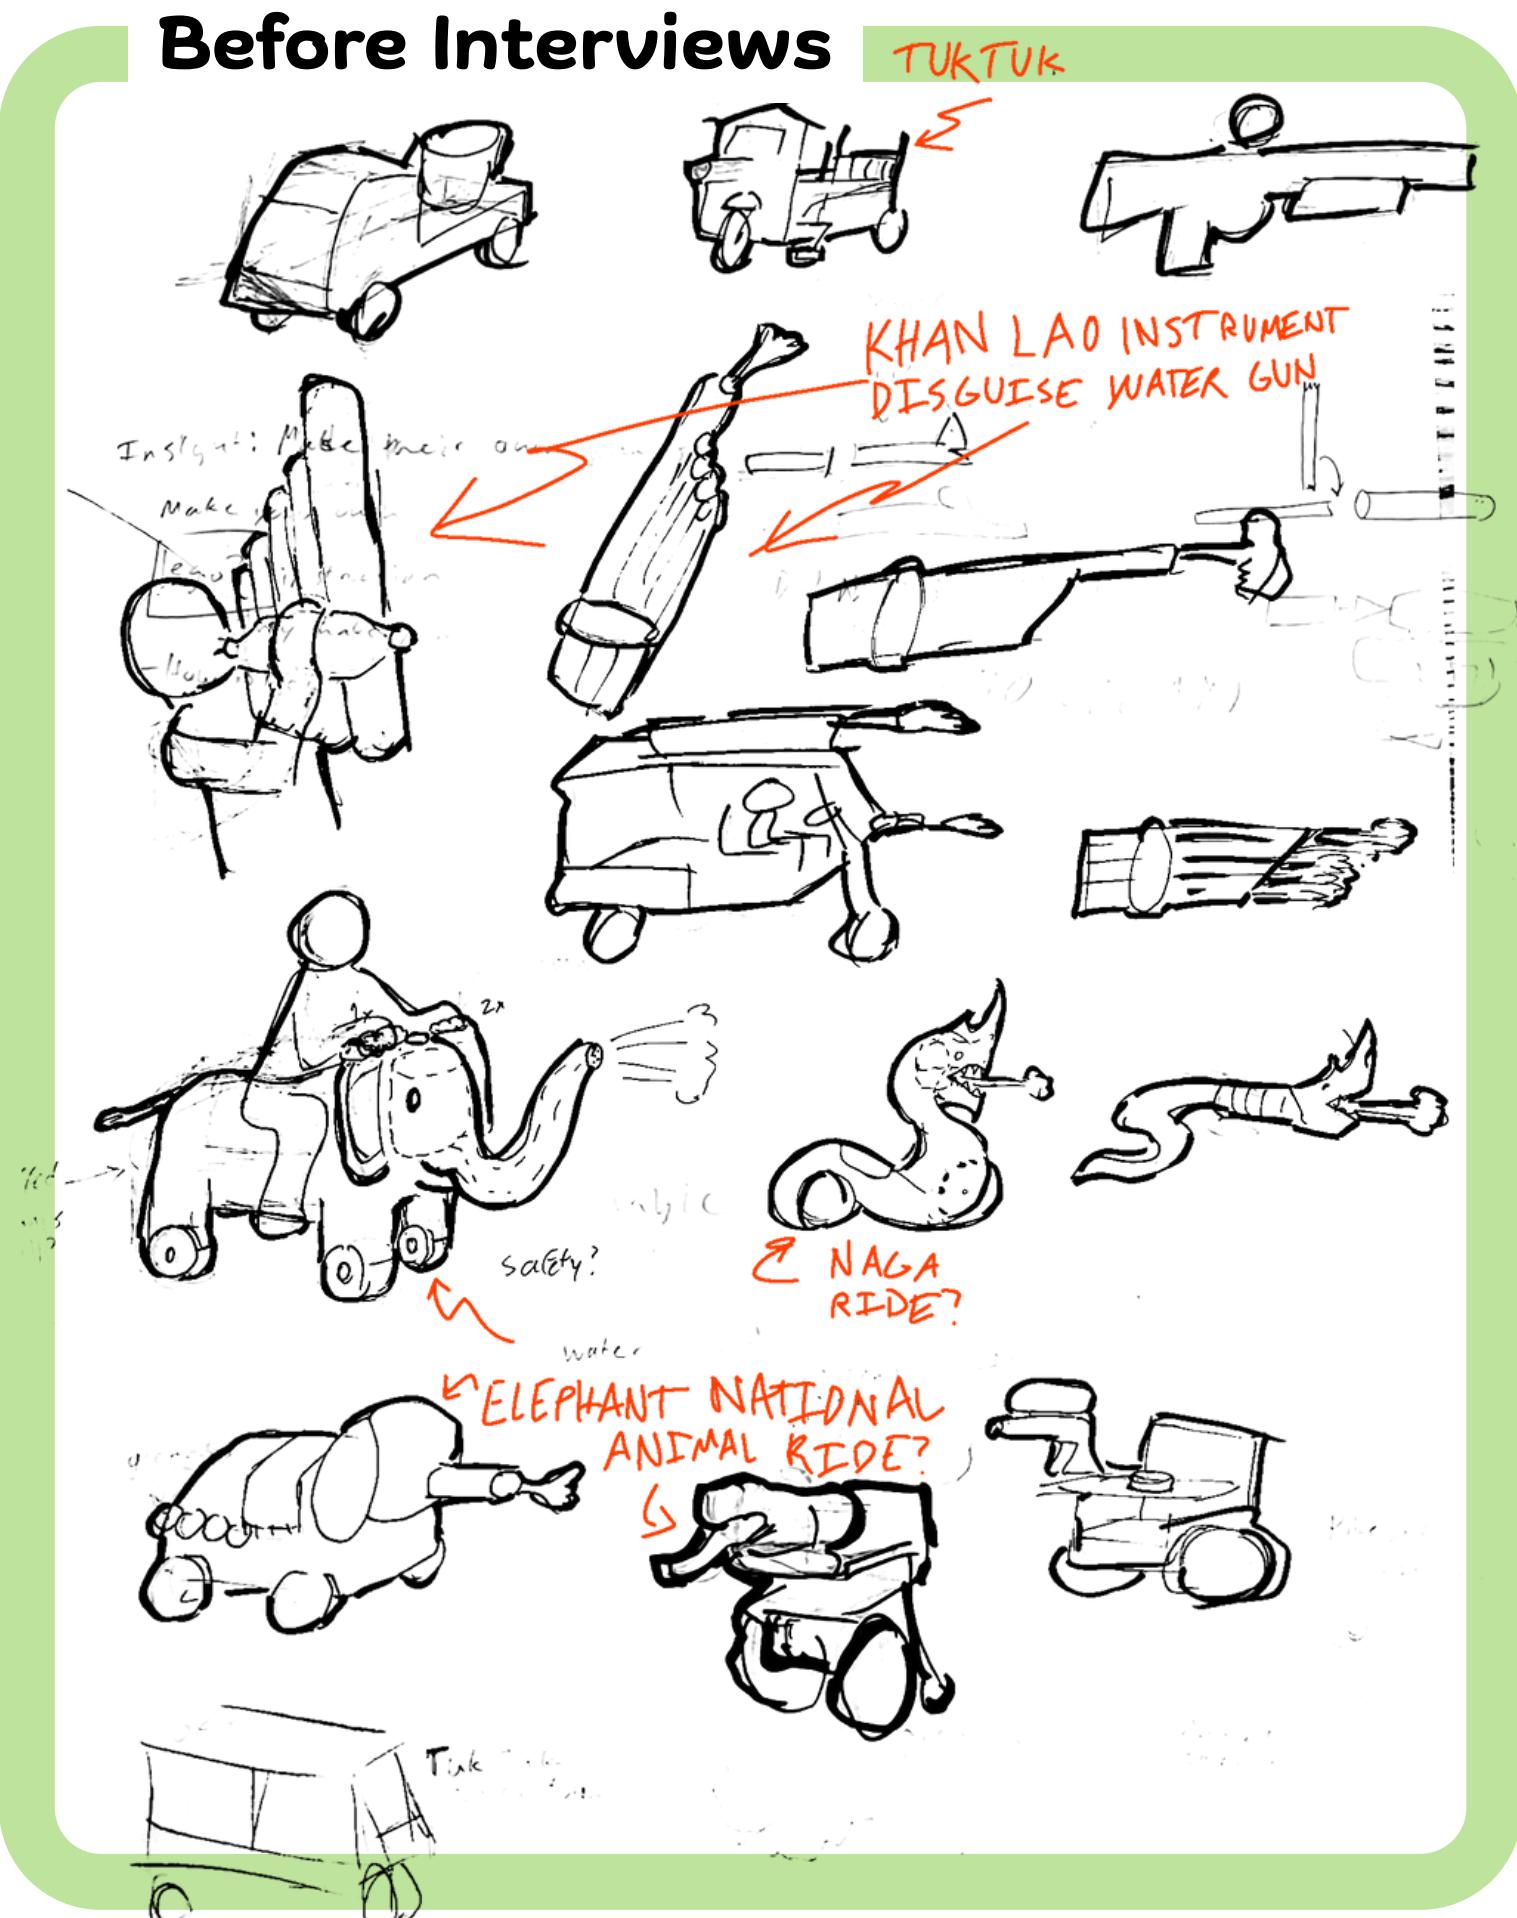

## HOW MIGHT WE...

HELP LAOTIAN KIDS  
EXPERIENCE A TRADITION OF  
LAO NEW YEAR THROUGH THE  
DESIGN OF A WATER TOY?
